SWIMMING BEACH ASSURED FOR CITY

The city government on Tuesday night accepted plans and specifications for a swimming beach in Wilson-Ledbetter Park to cost in excess of \$13,000.

The city will be required to pay 35 per cent of the cost of the construction, the remainder to be paid for under a Public Works Administration grant, Mayor Smith said Wednesday that funds are available.

The swimming pool will be constructed independent of the proposed water works and will be realized for the city whether the water works program succeeds or fails.

Permission has been granted by the Santa Fe railroad to re-open a spring near the freight depot of the system here. The water from this

spring, said to be large in volume will be used for the swimming pool. The water would also feed the lake in the park.

The swimming pool is to be 40 feet wide and 135 feet long and built on standard specifications for all water contests and sports events. In one end of the pool is a wading space for small children.

This is a forward step for Cameron, citizens here Wednesday generally agreed. The city has long needed such an attraction. It was heartening for the New Year to know that the swimming beach is to be realized and that funds will be available soon for its construction.

It was agreed that other improvements would follow in the park once the pool is constructed.

Makes Appeal for Cripple Children

NATHAN ADAMS

Thousands of personal letters have been mailed during the past three years by Nathan Adams, president of the First National Bank in Dallas, in support of the Scottish Rite Hospital for Crippled Children. Mr. Adams is now preparing his fourth annual letter to his friends throughout Texas. This year the Crippled Children's Hospital is more than ever in need of funds, owing to the fact that they are taking care of scores of little sufferers from the effects of the infantile paralysis epidemic which during the summer months swept the State. This personal appeal on the part of Mr. Adams has resulted in Christmas subscriptions sufficient to maintain the hospital at full capacity during the past three years.

Powell and Loy Team Up In Smash Comedy Sunday at Cameron Theatre

With William Powell and Myrna Loy back in the farcical type of roles which have made them famous as the most amusing co-starring team on the screen, "Double Wedding" opens Sunday at the Cameron Theatre with the advance reputation of being the dizziest, daffiest and drollest comedy hit to be shown in this vicinity in some time.

This is the setup: Powell is a peniless happy-go-lucky artist making his home in a trailer and refusing to take life or anything else seriously. Miss Loy is Margit owner of a fashionable New York dress shop, a woman too busy to have time for love or any other foolishness. Florence Rice is her younger sister, Irene, with suppressed desires to be a movie star. John Beal is Waldo, whom Miss Loy has chosen to marry her sister.

When Irene meets the fascinating

P. J. LEAVSON DIES IN CAMERON ON TUESDAY

P. J. Leavson, 76, died at the family residence in Cameron on Tuesday morning December 7, 1937.

WILL BUILD PLANT SAY COUNCIL OFFERING ISSUE

Tuesday night the city government authorized the issuance of \$150,000 in revenue bearing bonds to purchase or construct a system of water utilities, it was announced by Mayor Chas. C. Smith.

The council took the necessary steps to offer the bonds for sale and to proceed with construction of a water system if the present utilities cannot be purchased at a price fair to both city and the present owners.

Under the terms of an election held in the city in September the Council is empowered to buy the properties of the Texas Water Utilities Company or proceed to build an independent water system.

It was pointed out by Mayor Smith that the action of the council is preliminary to final action in the matter.

Mayor Smith said he would make one more effort to purchase the water system from the Texas Water Utilities Company and if no agreement could be reached the government would go ahead and build a plant and distributing system. Thus far no figures at which the city hopes to buy the plant has been announced. Likewise no statement has been made by the water company. Recently the water company was offered a figure, not yet disclosed, for the properties. It was believed the figures offered was not agreed to by the water company.

Mayor Smith did not indicate what date he would make the second and final offer, but indicated it would be shortly.

The people authorized the issuance of bonds in the sum of \$150,000 for water works. The council feels at liberty to proceed to build a new plant if purchase of the present utilities cannot be agreed upon.

All preliminary arrangements were made Tuesday night to call for bids on the construction of the plant. Everything was in readiness except bid sheets and the engineer was asked to proceed with them to have everything in readiness, said Mayor Smith.

Goodfellows Provide Gifts for Children

Following the precedent set in former years every needy child in Cameron under twelve will have a real Christmas with candy, fruit, toys and suitable new clothing.

This year the Knights of Pythias, Masons, Knights of Columbus, Odd Fellows, Lions Club, American Legion and Boy Scouts all have a part in this worth while undertaking, and generous Stanley Swift is giving a toy matinee, Saturday morning with Shirley Temple as the feature. Admission is by toy only—a new toy or an old toy that can be put in good shape. Members of the three Boy Scout troops will use their skill in making the old toys as good as new, and Mrs. C. E. Gaston and her committee of young women will see to it that every doll has an attractive dress.

Many names of children who should be remembered have been submitted to the investigation committee and each one of these homes will be called on to find out the needs. This committee is composed of Mrs. W.

O. Triggs, Mrs. J. C. Martin, Mrs. Albert Collins, Mrs. Bea Winfield, Mrs. Richard Bush, Mrs. J. M. McLean, Mrs. Maurice Groves, Mrs. S. Kestenbaum, Mrs. John Henderson, Mrs. Juanita Lyon, Mrs. F. E. Woodruff and Mrs. J. P. Love.

A few days before Christmas, the new clothing, shoes, sweaters, dresses, underwear, etc., purchased through the gifts of the men of these organizations will be assembled and wrapped, the toys tagged and the stockings filled. And then on the eve of the world's greatest Gift Day, Santa Claus will visit each house and bring happiness and cheer to many little kiddies.

Not a single one of those who contribute of their means are their time expected a reward, but let us hope they will listen to the "still small voice," of Him, whose birthday they are celebrating, saying to each one of them "In as much as you have done it unto the least of these my little children—you have done it unto me—be partakers of my joy."

A Christmas Reconciliation

Helen Waterman

MARY and John had quarreled—just before Christmas, too. The Christmas candy had burned, and then, in the excitement, each had blamed the other, making cruel retorts, until Mary fled to her bedroom in tears and John stalked off in the snowy night.

The Christmas candle beamed a welcome from the window as John started around the block again. He was cold, and sorry, but he mustn't go in too soon.

The tree, the holly, their little girl asleep in her crib and dreaming of Santa Claus—all were a mockery. Mary went into the living room and snapped on the radio, looking for a jazz band and forgetfulness. Instead there came the strains of "Silent Night"—"peace on earth, good will to men."—"God bless us, every one!"—"may nothing you dismay." Wasn't there anything on except Christmas programs? A click brought back the silence.

She opened the front door. Next time she would ask John to come in. Tell him she was sorry. Now that she stopped to think, she knew that he was sorry, too. Why let a few excited words that neither of them meant spoil their Christmas?

But John did not come. It was too cold to stand at the door any longer, but she sat at the window, with the curtain drawn aside, watching for him. An hour went by.

When at last she saw him coming the relief almost choked her. He

was striding rapidly, carrying something in his arms. She opened the door for him and he handed his burden to her.

"Here, Mary, hold him. Careful, now. His leg's hurt. I'll get a box and we'll fix a bed."

Mary looked down at the warm bundle. It was a furry puppy. One leg was in splints. The puppy whimpered a little and licked her hand.

"But, John, where did you get him?"

"Accident. Over on Linden. Fell out of a passing car. I took him to a vet and had him fixed up. Thought he'd make a cute pet for Alice."

He stopped his work and straightened up. "I'm awfully sorry, Mary. I was a fool."

"It was my fault, John." Their eyes met in perfect understanding. How silly to quarrel. The silence was a more impressive reconciliation than words. Mary broke it nervously, for fear she would cry again. "There are some clean rags in that drawer. And we ought to get him something to eat. He can have this old bowl for his dish." She worked with one hand, cuddling the puppy. "Won't Alice be surprised? And what shall we name him?"

"Ought to have some connection with Christmas eve, don't you think. How about Scrooge, or Marlow?"

"Oh, no!"

"Good King Wenceslaus?"

"Such names for a poor innocent puppy! Maybe we had better see what Alice wants to call him in the morning." She put the puppy down with a saucer of warm milk. John came and put his arm around her, and they stood close together watching their pet lap greedily.

"We ought to call him Peacemaker, honey," said John. "If it hadn't been for him, I might have still been out there in the snow."

"Oh, John!" She held him close. "Weren't we silly? I was so worried when you didn't come. If anything

had happened to you I could never have forgiven myself."

"Felt pretty rotten myself. Not my idea of the best way to spend Christmas eve."

"Of course! I forgot! We have so much left to do! The tree, and Alice's doll must be unpacked, and her stocking filled. What time is it?"

He looked at his watch. "Almost midnight."

"Not really!"

He nodded, and put his watch on the table. "Here, pooch," he said, "it's bedtime for you." He lifted the puppy into its bed, and turned back to his wife. "And as for you, milady," he said, "in about ten seconds I want a kiss for Christmas, and then we're going to pitch in together and clean up this mess, and trim the tree, and maybe even chance another batch of candy. OK? Then, it's time, darling, to say Merry, Merry Christmas."

WHY THE FORUM

(Editor's note: This article is published as a news item and represents the personal views of Mr. Ferguson only.)

I began publication of the Forum in 1917 and continued until 1936, when on account of conditions publication was suspended. I have genuinely enjoyed the rest and relaxation which has been my pleasure to obtain in the last year and a half.

Beginning with the first of this year many people have urged me to renew publication of the Forum and open the columns for discussion of the many public issues that seem to be uppermost in the minds of the people.

I have decided to respond to this request and the issue will appear today, December 9th, 1937, at Arstine, Texas, entering upon this task first because I enjoy editorial effort and because I think that at this particular time there is urgent need of frank and fearless discussion of principles and issues that involve the weal and welfare of the people.

How far I will succeed in my desire to be of some service to my country I can not at this time tell. But I do promise to do my best and meet all issues as they may arise. I shall not be content with a mere abstract presentation of abstract principles, but I shall earnestly strive to apply those principles to the every day troubles that now afflict the people.

What is now most needed is action that will produce remedies. We may for a time forget the threatened wars in foreign nations and look around for the accomplishment of needed reforms at home.

Impelled by these thoughts I have prepared the Forum platform that will deal with measures and not men and with facts and not ambitions—yea remedy and not dreams.

This platform appears and will continue to appear in the columns of the Forum for an indefinite time. This platform, which deals with the very important matters of economy in government, high taxes, old age pension, sales tax and the care of the blind and indigent children, as well as the teachers retirement fund, may take a long time to completely discuss. But I am going to give my views and I am going to invite others of interested mind to use the columns of the Forum in which to express their views on these issues which everybody knows are the most serious that ever confronted the people of any state or nation.

I am reviving the Forum early so that we will have months to discuss platform remedies before we begin the usual political struggle between candidates. The serious condition of our state, counties and cities should receive our first attention, and we should oppose the intrusion of ambitious candidates who are more concerned about the spoils of office than they are about the welfare of the people. To protect ourselves, we

should inform ourselves as to what we need and then select the candidate who is in sympathy with our views and desires.

We should again consecrate ourselves to the fact that they who receive office by our votes thereby become our servants and not our masters.

Another thing that should receive our serious consideration is the necessity of selecting so far as we can qualified people to fill our offices. It is a bad mistake to elect people to important office unless their occupation and experience has been such as has qualified them to know something of the duties of the office to which they aspire.

Our nation and our state is now floundering on the rocks of insincerity, ignorance and inexperience. We may survive either one, but it is certain we can never live down all three.

Mr. Voter, just a word personal. If you would like to take part in this discussion of public questions and if you would like to do your mite in helping to set up plans and policies now badly needed for our relief, it certainly will not hurt for you to get the Forum coming to your door and also begin now to arrange for that poll tax. Thus equipped you will be fixed to meet the enemy with information and ammunition.

Welcome New Year

Welcome to you, New Year, enter new born king—

Can you tell us something of the tidings that you bring?

Do you carry happiness,
Enough to last the year.
Do you sing a song of joy
To cast out doubt and fear.

Perhaps a balm for heartaches
You bring along with you;
Perhaps a key to friendships
To buoy us all year through.

We bid you welcome, New Year—our dreams we trust with you,
Forgetting ills of all the past, we start the book anew.

Here Comes Eddie Cantor In Ala Baba Goes to Town

Fun-making Eddie Cantor and hit-making Twentieth Century-Fox have combined their talents for the first time and really go to town as the comedy king of screen and radio stars in the most hi-de-hilarious, extra-glorious entertainment either have ever made, "Ala Baba Goes to Town," featuring Tony Martin, Roland Young, June Lang, Louise Hovick and a tremendous cast, which opens Thursday, December 16 at the Cameron Theatre.

The creators of "You Can't Have Everything," "Thin Ice" and "Wake Up and Live" set the sky as the limit to give Eddie Cantor the picture that tops anything he has ever done, and marks the beginning of a new and important phase in his brilliant career.

"Ala Baba Goes to Town" is the most magnificent combination of colorful-extravaganza, side splitting comedy, song hits, beautiful girls, exotic dances, brilliant dialogue and lavish sets in the history of fun.

Equally as important is a revolutionary new three-tone tinted process utilizing sepia and copper as the basic effects. A combination of blue and orange, mixed with copper is used for the night sequences, while sepia, amber and copper provide the special effect for three day time episodes.

The new, surprising Cantorland of laughter becomes a grab-Bagdad of fun as Eddie turns Bagdad into Gag-dad when he snaps it up to date with a head-tax on harems, a tail-tax on camels, a harem-reduction program, slips carpet tacks under the sit-down strikers, and snaps the Sultan into step with the march of time.

Among the hi-de-highlights in the spectacular mirth-musical are Eddie aboard the Magic Carpet dispersing the enemy's army; the sumptuous, colorful Bagdad banquet with Eddie as master of ceremonies; the Magic Carpet campaign and election returns in Bagdad; the Queen of the Harem, Louise Hovick, making love to banjo-

eyed Eddie; a thousand and one other sights and hit tunes by Mack Gordon and Harry Revel, "I've Got My Heart Set On You" with Tony Martin singing and June Lang dancing, "Laugh Your Way Through Life," a happy hit led by Cantor, and "Swing Is Here to Stay," to which Eddie, the Peters Sisters, Jeni Le Gon and the swinging, swaying chorus perform a riotous, rhythmic routine. Raymond Scott leads his famous Quintee playing his own modernistic composition, "Twilight in Turkey" at a Harem dance.

artist she doesn't want to marry Waldo any more. When the artist meets Margit he doesn't want to bother with Irene any more. Poor Margit and Waldo conspire to straighten things out but before the uproarious climax of the story is reached, everything is more complicated than ever. It is all pure unadulterated farce.

The comedy is enriched by the smartest New York interiors that the Mero-Goldwyn-New York designers have ever constructed for a picture, and the women will rave over the stunning new gowns designed for Miss Loy and Miss Rice by Adrian.

Richard Thorpe who directed the Robert Montgomery thriller hit, "Night Must Fall," now shows his flair for comedy in directing the cur-

rent laugh-maker. Together with the principals the cast of the new picture includes Jessie Ralph in another of her inimitable dawager roles, Edgar Kennedy as the dumb proprietor of a beer parlor, Sidney Tober, Mary Gordon, Barnett Parker, Katharine Alexander and Priscilla Lawson.

THE NEW FORD V-8 FOR 1938 IS HERE

Hefley-Stedman Motor Company upon receipt of the new Ford V-8 cars for 1938 released the following statement which gives specifications on the new cars.

The first showing was held on Saturday of last week.

Ford V-type 8-cylinder cars for 1938 are now on display at Ford dealer showrooms throughout the United States. They are offered this year as two distinct lines, differing in appearance and price. Both are in the lowest price field.

One is a newly-styled standard Ford line, in coupe, Tudor and Fordor body types, powered either with the 85 or the 60 horsepower V-8 engine. The standard cars are designed to meet requirements of the many motor car owners, whose means dictate maximum economy in first cost, as well as in maintenance and operating costs.

The other is a newly-designed deluxe line for owners who desire additional style and appointments. Powered only with the 85 horsepower V-8 engine, the line includes eight body types, the coupe, Tudor and Fordor sedans, as well as the club coupe, convertible cabriolet, club convertible cabriolet, convertible sedan and the phaeton.

The two lines of cars have the same improved V-8 chassis, but their styling is distinctly different.

The deluxe cars are larger in appearance. The hood has been lengthened. Its nearly vertical front is carried in a "V" well down into the radiator grille, with the familiar V-8 emblem at the tip of the "V". Horizontal lines of the grille bars and the louvers are echoed in a bright rustless band which is carried along the belt to the rear.

The new standard line cars also present a larger appearance, with a newly-designed front end, grille, hood and fenders. The front end is formed in a "V," with the horizontal grille bars extending unbroken along the hoodside to form the louvers.

Fenders in both cars are massive, formed lower to provide more complete coverage of the running gear and extending farther back. Headlamps are again recessed in front fender aprons, new type tail lamps in the tips of rear fenders.

Interiors of the two cars are roomy and attractive, styled in keeping with the exteriors. The de luxe sedan interiors are larger.

A new instrument panel adds measurably to the beauty of the front compartment. The panel of the de luxe line cars is in walnut grain finish, that of the standard line cars in mahogany finish.

Instruments are arranged in two groups directly in front of the driver. In the middle of the panel is a grille, for radio speaker installation when specified. At the right a glove compartment is recessed in the compartment door.

Instruments in both cars are lighted by improved fringe illumination, designed to provide safer lighting for night driving. Interior lights are located on the right and left pillars of the sedans and over the rear windows of coupes.

Steering wheels of the de luxe cars are of flexible multiple steel spoke type, with hubs of rich brown bakelite material and rims of lighter contrasting color. Standard car steering wheels are of three-spoke type, finished in beige. The upper spokes are widely spaced to give the driver unobstructed view of the instrument dials.

Night driving safety is also increased by addition of a headlamp beam control on the toe-board of both lines. The control is operated by the foot. A tell-tale light on the instrument panel indicates the position of the beams, whether high or depressed.

Both front and rear seats are wide enough for three persons. Seat cushions and backs are finished in piping and pillow treatment. In the de luxe cars the finish is set off with

rows of ornamental buttons. Arm trays are recessed in rear seat arm rests of the de luxe closed sedans.

Light tape mohair or broadcloth is optional in the closed de luxe cars, tan hand buffed antique finish leather or taupe bedford cord in the convertible and tan leather in the phaeton. The seat cushion and back of the rumble seat in the convertible cabriolet is finished in artificial leather.

In the standard line, mohair and broadcloth are optional in cars equipped with the 85 horsepower engine. The mohair is available only on special order in the 60 horsepower cars.

The driver seats of all cars except the phaeton are adjustable and the amount of adjustment has been increased.

One of the unusual new features is the front seat of Tudor sedans. The seat cushion is full width. Seat backs are divided, each being hinged diagonally so as to swing inward as it is tipped forward. This provides a wide passageway on either side for entrance to the rear compartment.

Clear vision ventilation is continued in all closed bodies. Rear quarter windows of de luxe Fordor sedans and club coupes are pivoted for additional ventilation.

Bodies of both car lines are all-steel. There is no metal-to-metal contact between body and frame, the result of thorough use of insulation. Safety glass is used throughout in windshield, doors and windows.

The luggage compartments in all cars is closed off by a wall from the passenger space, and locked with a separate key. The compartment door hinges are concealed, the doors opening from the bottom.

A HAPPY CHRISTMAS

Unloving indeed must be the heart that cannot offer and respond to that universal greeting, for Christmas is the time beyond and above all others when we should forget differences and disagreements and quarrels. Serious though we may have hitherto thought them shall we not put an end to them as the Yuletide greeting rings in our ears. "A Happy Christmas!"

A new feature of the rear deck design is a combination handle, license bracket and light, formed in the shape of an airplane propeller hub. Spare wheel and tire are carried in all compartments except in the convertible cabriolet. In this type, because of the rumble seat, the extra wheel and tire are mounted back of the seat.

The V-8 112-inch wheelbase chassis has been improved. Its features include "centerpoise" construction, rubber-cushioned engine, easy steering, softer springs, improved cable-controlled brakes, semi-centrifugal clutch, full torque tube drive and straddle mounted rear axle driving pinion.

Refinements in the V-8 engines to provide better performance, particularly at lower car speeds, and brake improvements increase the ease of control by the driver. Riding is made more comfortable by the improved springs.

Plans Advanced For Tubercular Clinic in County

Milam County Child Welfare and Public Health Boards had opportunity of hearing two interesting topics discussed by two interesting speakers at a joint meeting on last Thursday.

Dr. W. R. Newton, Jr., County Health officer, introduced to the group a plan by which the State Department of Health offers to this county, as to others, through the County Medical Association, a tuberculosis clinic, which would be held at several points in the county on successive days. Dr. Newton favors the plan as an educational project, and feels that much good may be accomplished by informing the public as to the preventative as well as the curative means.

Miss Nickerson, State Advisory Nurse, spoke regarding the definite progress made in our county through having a Public Health Nurse, and congratulated the Health Board on its good start toward effective health developments.

The next meeting of Child Welfare and Public Health Boards will be January 6th, 1938, at the home of Mrs. Jule Coffield, Rockdale.

Two New Year's Organ Hunters

By LUELLA B. LYONS

Ann Hudson hadn't recovered from the shock of the first Christmas present her husband, Phil, had given her, their first holiday together. Hadn't she always dreamed of receiving a nice car or a fur coat, or something equally as nice? But he had laid just a fifty-cent piece at her plate Christmas morning. All he could afford just now, he said.

"Ann, dear, get on your wraps, dig out the fifty-cent piece and let's spend New Year's day by attending Hartman's farm sale just north of Morton City, today," he urged. You know Frank Hartman, had some grand antiques and maybe you can make the fifty cent pay interest by investing it." He loved to tease her.

Everyone in Fletcher and Putnam counties had had the same idea and

by the time the Hudsons reached the Hartman farm Ann had quit being heartbroken and disappointed over her insignificant gift.

"There's one thing, they won't be able to give away here," a neighbor told Ann. "That's that pair of old reed organs over yonder. One belonged to Mrs. Hartman and the other to her Ma before her. No one will so much as carry an organ home these days!"

That set Ann wondering, but when Phil started to truck homeward, he was the one who was wondering. "You always know best, honey, but won't you let me in on the secret? Why the two organs at two biths each, please?"

"Just to tease, I'm not telling, but you must admit I got a lot of music for four bits, Phil."

Spring displaced the winter and along came the summer and with it a round of county and state fairs, exhibits and the like. And when the prize lists were being published, one item stood out like a sore thumb—

"Extra classification—Antique reed organs—oldest and finest group display: First, second and third prizes, Mrs. Phil Hudson—\$30." That was a sample of the prizes Ann collected throughout that summer and she and Phil attended farm sales everywhere, hunting rare old reed organs which Ann tinkered with, polished, mended, played and finally exhibited something, for others were delving into the organ collecting hobby.

New Year's morning rolled around again and Phil found a tiny envelope at his plate. "Just a little gift and a little interest on that four-bit investment you financed last year. Let's hunt up a farm sale to celebrate the day, too, Phil. What say?"

"Sure, but it's 82 miles away so we'd better get going. What's 82 miles in the lives of two organ hunters?" he gibed back.

THE NEW IN-TERVAL PRESENTS

What does he say to you ... this year?

Is it going to be as well with you as you wish? Or, will it be just another Christmas?

A year ago we said to you: "If you would profit immeasurably in the coming year you must bank some money... lay something away for the inevitable day of need."

If there is anything at this time we know would benefit you the most, aside from your health and your family, it is to begin a systematic plan of saving and if you will come into this friendly bank we will discuss this important detail with you.

CARDUI

In this modern time something wonderfully worth while can be done for practically every woman who suffers from functional pains of menstruation. Certain cases can be relieved by taking Cardui. Others may need a physician's treatment.

Cardui has two widely demonstrated uses: (1) To ease the immediate pain and nervousness of the monthly period; and (2) to aid in building up the whole system by helping women to get more strength from their food.

Christmas In The New Home

"THE first Christmas in our new home," Janice Wray announced joyously as she stepped across the threshold of Stewart's and her new home.

"Christmas in our new home," Stewart echoed, switching on the light.

"Oh, isn't it just grand!" exclaimed Janice.

"I'll say it is—but slow up—slow up, Janice! I've got about all my arms will hold, without taking you aboard," Stewart warned her as Janice attempted to throw her arms about him.

"Oh, keep quiet! You're just as excited as I am—so why pretend?" Janice answered with a toss of her head.

Stewart put his packages down and then with his arms around her he assured her, "You bet I am, Honey. I think it is wonderful! Stupendous!" And just because they were so happy, they both laughed.

"Come on—let's get busy with the tree," Stewart suggested.

"Right!" agreed Janice, "just as soon as I change my dress."

The tree must be neither too large nor too small.

Some time had been consumed deciding just the proper size for a Christmas tree for two. They were to be alone this Christmas—the first Christmas in their new home; there was no doubt about that, for they had definitely decided that when they purchased the house. And now here they were ready to trim the much-discussed tree.

"Isn't that star lovely?" Janice said as Stewart placed it at the top of the tree.

"Yes. But I thought you had planned on something else," Stewart replied.

"I changed my mind," was all Janice said. She didn't tell him she couldn't think of a Christmas tree without a star at the top. They always had one on the tree "at home."

"Thought you weren't going to get any red balls," she reminded Stewart.

"I changed my mind," Both laughed at Stewart's echo of Janice's answer of a moment before.

"Mother would love this silver ball," Janice hung the ball where it caught the most light.

"Wouldn't Bess love this blue ball?" Stewart picked up the large blue globe.

"Our dads would enjoy that open fire—and Bill those spruce boughs over the mantel"—Bill, the older brother of Stewart, loved anything from the woods.

And so each thing reminded them of someone's fondness for it, or of some of the happy times of former holidays.

"Well, I guess that's all for now," Stewart said when the decoration of the tree was finished and he and Janice stood admiring it. Janice made no reply to her husband's remark at first.

"All but the presents," she said hesitatingly.

"Oh, we can put those out later," Stewart suggested.

"But I mean the ones for the family," she explained.

"Didn't you distribute those today?" Stewart asked in surprise.

"I thought it would be more fun to take them together."

"Stewart stopped and kissed her. 'I think so, too, honey—so let's go.' 'Wait until I get my hat and coat.' 'And I'll bring the car up to the door.'"

When Stewart returned to the room Janice was placing packages under the tree.

"Janice, doesn't it seem to you there is something wrong with the tree?" Stewart asked suddenly.

"No," Janice walked all around the tree, looking at it critically.

"No," she said the second time—then suddenly—"Yes, Stewart, there is something wrong—something missing—the loving sharing of decorating the tree. Our families would so have enjoyed it. We trimmed it just for ourselves. It does seem selfish."

Then after a moment's silence she cried: "I have it! Suppose we leave the presents here and invite our families here for a good old-fashioned Christmas eve celebration. What do you say?"

"I say—great! Here goes," and Stewart hurried toward the telephone.

Obituary

I wish that everyone who knew the late Oscar A. Tysor as a mere passing acquaintance could have had a closer friendship with him. To me was accorded the privilege of a near and dear relationship, for he was my "Uncle Oscar." In early childhood days, it was a great joy to visit in his home, not only because I might play with his children who were near my age, but because of the opportunity to be with him. He always had jokes and fun with the youngsters, making us feel that we were important along with our elders. As years passed on, and his cares and perplexities became heavier, he still was cheery and interested, and it was a delight to visit with his family in their happy reunions together. It was my pleasure to witness what close understanding and companionship existed between him and his wife and children.

Great sorrows came to him in his last few years, more than many of us have to bear in a lifetime; and his health failed so that he was an invalid; but there still lived in his heart a great love and kindness for his friends and relations. He never tired of having visitors; and though it may have seemed to him sometimes that I might have come oftener, he never reproached me but was always so sweet and appreciative of any favor, though I did so little.

There is grief in my heart for "Uncle Oscar" because I loved him dearly and will miss him much, and because he always hoped that he would be well and "out in the world again," but I know it is a selfish grief. All of us who knew him and loved him (and if we really knew him we did love him) should feel thankfulness that he is at rest, free from his pain and heartaches.

His Niece.

A New Year's Eve Lesson

By HELEN WATERMAN

"Everyone will be at the New Year's party but me," wailed Ruth, "and you promised to take me."

"I know, daughter," her father responded, "but not in such a storm."

"There probably won't be any party," Ruth's mother consoled her. "They'll have it some other time."

"Imagine a New Year's party at any other time!" Ruth laughed bitterly. "I never get any fun. Cooped up here on the farm all winter, and now when there's something doing, father backs down on his promise. Scared of the storm! Why, I wouldn't be afraid to drive over alone."

"Well, you aren't going to! All right, I guess we can make it. Go get your things."

Ruth jumped up and kissed him. Her mother's protests were scarcely heard.

Before they had gone far Ruth admitted the storm was really worse than she had realized. The snow was not very deep, but the howling winds had piled it in strange drifts that made even their own gate and the familiar road seem queer and unreal. The windshield, except when the wiper swung back and forth was blurred and she strained to make out the edge of the road. Her father also was having trouble.

They Stumbled On Together, Feeling Their Way

"We'll have to turn back, Ruth," he said. "There isn't a chance. It's getting worse, too. Better to miss the New Year's party than the New Year."

"Of course, father," Ruth felt relieved.

The car swung around, the brakes jammed. The soft snow settled down under the two front wheels which hung over the edge of the road. "We've stuck, Ruth," her father said. "I doubt if I can get enough traction to back her." They got out, scraped away the snow and tried to lift the car, but one wheel was caught. Ruth shivered. "Haven't we better hike home before this storm gets worse—and we get too cold?" asked Ruth.

Following the road proved quite a task. They stumbled on together, feeling their way, and at last the welcome lights of home showed them the right direction. "This isn't much of a New Year's eve celebration," Ruth admitted, "but it's a lesson. I'm making my New Year's resolution right now not to insist on my own law."

"That's right, honey," her dad replied, "and if you remember that, I'm sure we'll always have much happier New Year."

SAN SABA DEFEATS
BELTON 33 TO 7

San Saba, Dec. 3.—The strong San Saba Armadillos downed the district 28-B champion Belton Tigers here today 33 to 7. Two backs, Bagley and Clark won the game for San Saba with their runs and passes.

The Armadillos scored on the sixth play of the game when a pass from Bagley to Ponto was good for 15 yards and the score. The Tigers came back after this play and held the Armadillos until early in the second quarter when Bagley and Clark alternated in lugging the ball within scoring distance. Clark put the ball on the 17 and Little packed it over for the touch.

Tigers Fight Valiently

The Tigers put up a valient fight for the rest of the second period and a pass from Blackburn to J. Furnace put the Tigers on the 10 yard stripe one time. The Tigers then attempted three passes. They were all incomplete and the last went over the goal and gave the Armadillos the ball on the 20.

Belton came on the field at the be-

ginning of the third looking like an inspired team. Blackburn and Stringer did some beautiful passing to end Nick Furnace but their passes failed to click when in scoring territory.

San Saba Scores Again

Belton's running attack could not go through the heavy Armadillo line. Their passes were the only means that a gain could be effected.

The Tigers tried to get going again with passes. After three tries Stringer took a gambling chance and passed on the fourth and Bagley intercepted it on the Tigers 23 yard line. Two passes from Bagley to Oldham were then good for another score.

Tigers Tally One

Belton came up passing again. Stringer threw one to Law that was good for 20 yards and put the ball on San Saba's 28. Then Stringer threw one to Wilson that was good for 33 yards and the score.

After the kick Bagley took the ball for San Saba and threw 14 yards to Clark who ran 40 yards for another Armadillo score.

Belton desperately tried to gain

again with passes but Ponton Armadillo end, intercepted one on the 24 and then Bagley threw one to him that was good for 11 yards. Bagley then took the ball over for the score.

Armadillo Line Powerful

The feature of the game was the Tigers passing attack. Twenty-seven passes were attempted, 10 of them were good for over 200 yards.

Stringer and Law in the Tiger

backfield were the only Belton men that seemed to be effective against the Armadillos. Furnace and Wilson on ends played outstanding football.

Bagley in the backfield and Ponton at end started for the San Saba team. Both teams made 12 first downs.

Belton's line could not hold the San Saba line. The Armadillo line outweighed the Tigers 10 pounds.

IT WAS foolish to waste time and material making them, John Carlson told his mother when she said she would like to make some "gingerbread dolls" for the Christmas display in the window of his bakery. No one was interested in such things any more.

Yes, he was a very good son to her—he had given her a good home. She had nothing to worry her now—no responsibility. But she would enjoy making the dolls; that wouldn't seem like work. She would furnish the materials and make them in her own kitchen. Of course if she wanted to make them she could, John said.

That he was wrong, John had to admit. "We have never had so much interest shown in the window display and never sold more than we have since we put those gingerbread dolls in the window," John told a customer who had returned for a second purchase of dolls. Hulda Carlson had made not one type of doll, but different ones, and grouped them into families. "Her idea of grouping them into families is new. That's what attracted attention," the customer said.

When John told his mother this, she smiled. It was the love and happy thoughts—glad memories—

"That's What Attracted Attention," the Customer Said.

which went into the making that was the cause, she told herself. Her children had loved the sweet bits she had made for them at Christmas. Her children and grandchildren had outgrown such pleasures, but weren't there others who would enjoy those things? There proved to be many. And what joy it had brought her. No profit in money, but large dividends in joy—real Christmas joy—that of serving and giving happiness.

FARM CLUB NEWS

Many thoughtful women ask themselves the question: "Why should I become a member of a Home Demonstration Club? Will I receive enough benefit from it to justify the time and expense necessary to being a good member."

Progressive farm women have long since realized that their time is too valuable to be spent in activities that are not productive of better living standards. The realization of this fact is the fundamental "doctrine" of Home Demonstration Work. The practical, progressive, studies of home life, as conducted in these clubs, are not narrowed to one channel of farm life but are consistently spread out to include practically every phase of rural life improvement. Various phases of several general subjects are studies. Some of these general subjects are: (1) Home Food Supply including production, preparation, and preservation; (2) Family clothing needs including planning, purchasing, and making clothing for the entire family; (3) Structural Home Improvement including convenience of arrangement for individual family needs; (4) Health and safety precautions in

He Sure Was Here

buildings, etc.

The Milam County Home Demonstration Council has selected topics in two of these general groups for the 1938 series of studies. Under Home Food Supply, Porltry Production will be carried as a demonstration in each club. This will include the selection of healthy chicks from

healthy flocks and proper methods of home hatching, proper housing of poultry, feeding for egg production, correction and control of poultry diseases, and practical uses of poultry and poultry products in the food supply.

Under Structural Home Improvement demonstrations will be given in each club on Kitchen Improvement. This will include time and labor saving arrangement, proper lighting and ventilation, running water and garbage disposal, and refrigeration.

After having learned what the 1938 Home Demonstration program will bring the question arises—What must I do to become a member of a Home Demonstration Club? If there is already a club in your community all you need to do is join. Usually the clubs have a fee of 5 or 10 cents a month dues to be used in the club as it desires. Each club decides for itself whether such a fee is charged. No large entrance fee is attached to any type of Home Demonstration work. If there is no club in your community it should not be a difficult task to organize one.

In the basement of the Cameron Post Office is the office of the County Agents of Milam County. Miss Dorothy Porter is the Home Demonstration Agent serving the Women's clubs of Milam County. She is there to serve you whether you give her the opportunity or not. In order for her to work to be most effective the Extension Department at A & M College has made a plan for group activity with two basic requirements. They are that a group of 10 women may receive the services of the Agent by (1) being represented in the Coun-

ty Home Demonstration Council and (2) by having a club member serve as adamonstrator in each demonstration carried by the County.

Any other activities of the group are optional.

Therefore if you do not have a Home Demonstration club in your community and you would like to have one organized, just drop a card in the mail box to Miss Dorothy Porter, Cameron, Texas, asking for information on the subject. Be sure to tell her your address and your community location. She will answer immediately. Now is the time to organize for a good 1938 start.

The New Year's Reconciliation

By BLANCHE TANNER DILLIN

Addie Root and Mattie Campbell had always been friends until Miss Mattie claimed Miss Addie's dog chased her cat and tore up her flowers. The fence was built and the boundary line of the two places ran so close to Miss Addie's gooseberry bush that some of the branches of the bush hung over the fence. The bush belonged to Miss Addie but the fruit on Miss Mattie's side of the fence Miss Mattie claimed. So Miss Addie picked the fruit on her side of the fence and Miss Mattie that on hers.

Last summer, being sure that Miss Mattie was away from home, Miss Addie went in through the rear gate and picked the fruit on Miss Mattie's side of the fence. The jam in the jar before her, which she had taken down from the shelf for her supper that cold New Year's eve was from that fruit. The jar had held candied ginger in Miss Addie's childhood and she recalled how she and little Mattie had eaten the ginger from it. She recalled that she and Mattie had picked gooseberries from a bush which grew near the place where the bush which had caused so much trouble now grew. She recalled the many happy times she and Miss Mattie had spent together—the times when Miss Mattie had been a real friend in need—had helped to ease some hurt or lighten some sorrow. What a pity it seemed that such friendship should ever be broken. Miss Addie's dog had been given away long ago, and Miss Mattie's cat had wandered away from home and never returned. With the two original causes of the trouble gone, wasn't it too bad for one-time friends to remain enemies? Wouldn't it be better to turn over a new leaf this New Year's day and renew their friendship?

It seemed so to Miss Addie and she resolved not to waste another minute, but do it right away! So with a jar of jam in her hand and love in her heart she went to wish Miss Mattie a happy New Year.

January was for Janus, God of New Adventures

The month of January bears its name because Janus was the god of the opening year. He presided over the undertaking of any new adventure, and was a god known only to the Romans. The Romans adopted January as the first of the year from the reign of their second king, Numa Pompilius, who ruled until 672 B. C.

Not until the Eighteenth century was January universally adopted as the beginning of the year. England took the step in 1752, and Sweden in 1753, but other European countries adopted this New Year's day at an earlier date; France in 1564, Holland, Protestant Germany and Russia in 1700.

NEW YEAR'S AT WHITE HOUSE

Since the White House was not completed during our first President's lifetime, the John Adamsons were the first presidential family to occupy it. The first drawing room or New Year's reception was held in the "President's palace," as it was then referred to, on New Year's day, 1801.

WATCH NIGHT

On New Year's eve midnight masses and watch night services are held everywhere, while those less inclined to religious observances make the closing minutes of the year an occasion for jollity.

Future Farmers Test For Pullorum Diseases In Chickens

How to do blood testing of poultry and turkeys to detect the presence of Pullorum disease was demonstrated to Cameron Future Farmers Tuesday by A. E. White, Swift & Co. representative, and each boy, following the demonstration, was given an opportunity to run a similar test.

In the flocks tested a large number of the birds were found to be reactors. The antigen test method was used. This method is satisfactory for use in weeding out the carriers of Pullorum or B. W. D. as it is sometimes called.

Little testing work of this kind has been done in the county, E. D. Parnell, Vocational Agriculture teacher, reports although there is a great need for more of this type of testing. Pullorum disease appears to be on the increase all over the nation. The testing work done Tuesday was part of the regular Vocational training given the boys and was participated in by 68 boys of Yoe high school, Parnell said.

The Year Old and New

By PHILANDER JOHNSON
in the Washington Star

Happy New Year comes to view. I'll say "Happy Old Year!" too. Since a share of happiness Lies in memories we possess.

Old year, we cannot forget
Duties that were bravely met,
Nor the courage that was taught
When the hours with doubt were fraught.

Old year, 'mid the shades of guile
You have offered many a smile,
Like the sunshine, clear and warm,
That must conquer every storm.

Be the future what it may,
Pioneers have shown the way.
Happy New Year comes to view,
I'll say "Happy Old Year!" too.

PAINT BRIGHTENS TOYS

In the basement or the attic many of us will find old toys the children have discarded. Christmas is almost here and much joy can be brought into the lives of less fortunate youngsters if we get out these toys, give them a coat of gayly colored enamel and distribute them ourselves or turn them over to a social agency to be handed out to needy youngsters on St. Nick's day.

1,000-YEAR-OLD PLAY

Hampshire mummers still perform a play which is said to be 1,000 years old and for which there is no written script. The mummers are farm laborers who wear costumes made of colored wallpaper. They give the play at Christmas time.—Pearson's London Weekly.

"MAILING EARLY"

The first reference to "mail early" in the Post Office department files is in November, 1913. This was at the time the parcel post was established. Sending packages overseas during the World War emphasized the idea, and succeeding years have found mailed packages more evenly distributed over the weeks before Christmas.
